

FROM NOW ON, I'LL
BE USING THE CHAOS
THEORY OF MANAGE-
MENT.

S. Adams E-mail: SCOTTADAMS@AOL.COM

AND THIS WILL BE
DIFFERENT HOW?

NOW THERE'S
A NAME
FOR IT.

Once upon a time...

Chaos? Failure? Performance?
Resilience Engineering

Challenges

- ★ Chaos tools had no OCI support.
- ★ Nobody knew what chaos was and the name did not help.
- ★ We needed more but did not know if it was right for us.
- ★ Engineers really really hate breaking things.
- ★ Companies consider production a no-no for anything with the word experiment on it. The blind confidence effect.

Imagine you'd like to run an ultra

Option 1

Broken bones.

Kidney failure.

Stress fracture.

Or... option 2

*Slow is smooth
and smooth is fast.*

Preparation / Learning.

5K - 10K.

Half-Marathon.

Marathon.

Ultra.

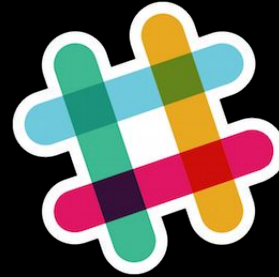

Awareness and expectations

From first principles

Be a free thinker and don't accept
everything you hear as **truth**.
Be critical and evaluate
what you believe in.

– *Aristotle*

There's plenty of room at the bottom.

--- Richard P. Feynman ---

Architecture design application.

ENGINEERS INNOVATE

designing the wonders of the world

*do not be afraid to
create your own version.*

If you don't toot your own horn
don't complain that
there's no music.

~guy kawasaki

*publish your findings,
internally or externally.*

BRITISH

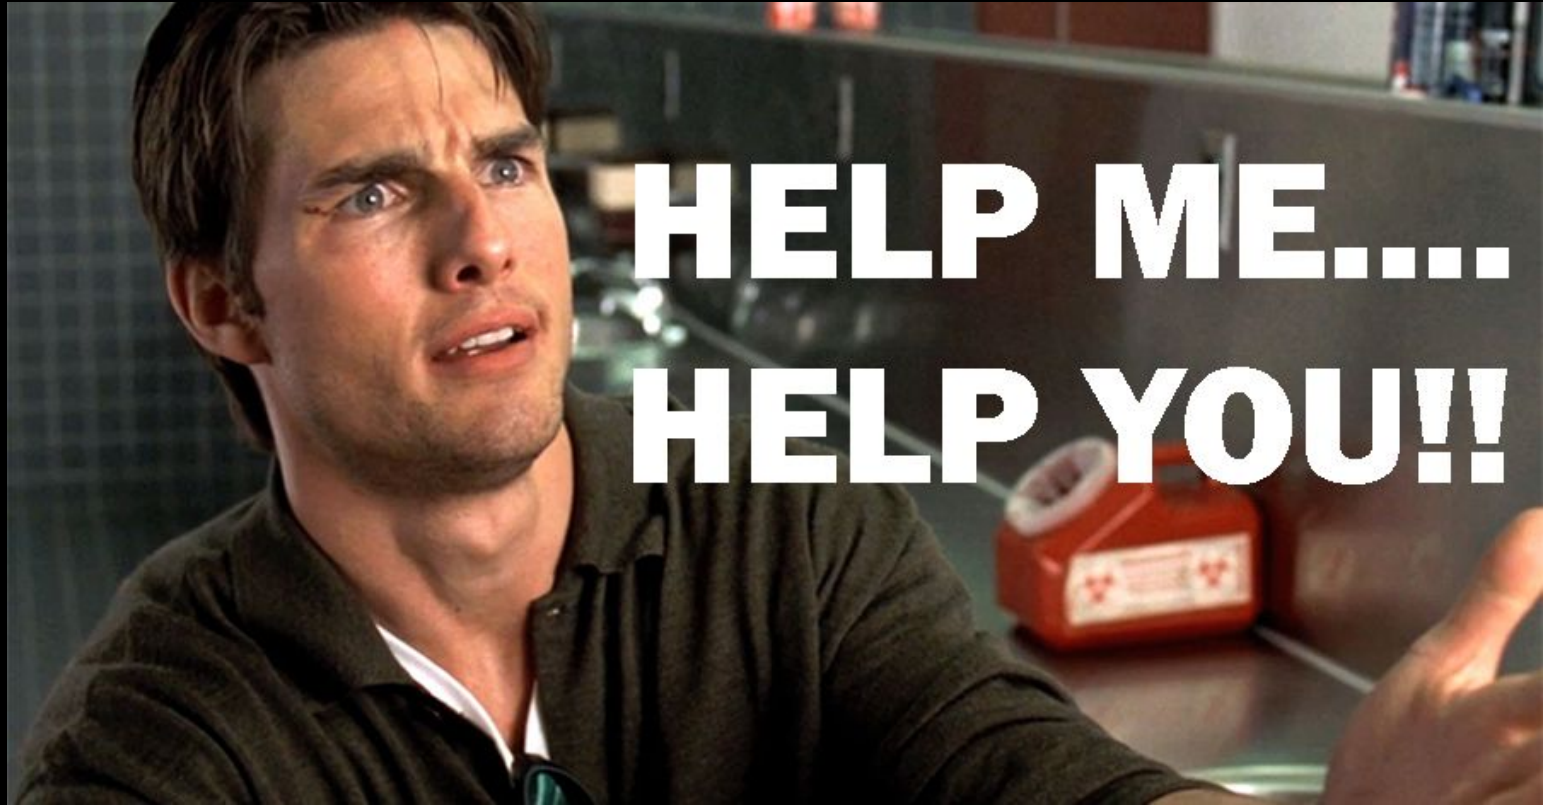

SUMMER

EXPECTATION

REALITY

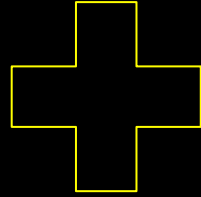

*validating
architectures.*

leveraging acquired products.

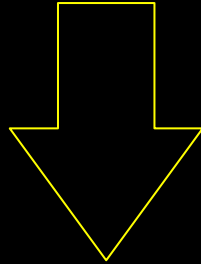

HELP ME....
HELP YOU!!

chaos

performance

the new chaos is fit.

GREMLIN

Avoid becoming a hammer.

I cannot teach anybody anything.
I can only make them think.

--- Socrates ---

*Thank you.
